

What are the grantee's School Readiness goals in each of the 5 domain for preschool children?

1) Physical Development and Health

Children will maintain healthy and age appropriate well-being, develop health and safety knowledge and practices while they develop control of large muscles for movement, navigation and balance.

2) Social and Emotional Development

Children will develop healthy relationships with adults and peers and recognize and regulate their emotions.

3) Approaches to Learning

- Children will show initiative, be able to stay focused, interested and engaged as well as cooperate with other during activities.
- Children will participate in a range of activities and learning experiences that allow for creative and imaginative expression, such as music, movement, dance, art and drama.

4) Language and Literacy

- Children will develop early literacy knowledge and skills as book, appreciation, phonological awareness, alphabet awareness, print concepts, and early writing.
- Children will develop skills for reading comprehension, recalling, and reciting information from familiar books.

5) Cognition and General Knowledge

- Children will engage in exploratory play and learning experiences to further their understanding of their environment, and the natural and physical world through observation, manipulation, problem-solving and asking questions.
- Children will use math in every day routines to count, compare, rank, describe relationships, solve problems, name shapes and attributes, pattern, sort, classify and measure.
- Children will develop an understanding of their self, family, community, environment, history and events, as well as learning to be environmentally conscious.
